

301.74 PLUM POX, “SHARKA”

Federal Domestic Quarantine

A. Pest. Plum pox.

A plant disease caused by plum pox potyvirus that can affect many *Prunus* (stone fruit) species, including, but not limited to, almond, apricot, nectarine, peach, plum, and sweet and tart cherry. The strain of plum pox in Pennsylvania does not affect cherry trees.

B. Regulated Articles.

1. All plant material and plant parts of *Prunus* (stone fruit) species **other than** *P. avium*, *P. cerasus*, *P. effusa*, *P. laurocerasus*, *P. mahaleb*, *P. padus*, *P. sargentii*, *P. serotina*, *P. serrula*, *P. serrulata*, *P. subhirtella*, *P. yedoensis*, and *P. virginiana*, except for seeds and fruit that is free of leaves and other plant parts. This includes, but is not limited to, trees, seedlings, rootstock, budwood, branches, twigs, and leaves.

2. Any other product or article that an inspector determines to present a risk of spreading plum pox when the inspector notifies the person in possession of the product or article that it is subject to the restrictions in the regulations.

C. Quarantined Areas.

Effective October 29, 2009, the entire state of Pennsylvania has been removed from the Area Under Quarantine. Please see APPENDIX B for Additional Infested Areas.

D. Conditions governing the interstate movement of regulated articles from quarantined areas.

1. The interstate movement of any regulated article from a quarantined area is prohibited except:

- a. For experimental or scientific purpose;
- b. Pursuant to a Departmental permit issued by the administrator for the regulated article;
- c. Under conditions specified on the Departmental permit and found by the administrator to be adequate to prevent the spread of plum pox, and;
- d. With a tag or label bearing the number of the Departmental permit issued for the regulated article or attached to the regulated article itself if not in a container, or;

2. The regulated article originated outside the quarantined area and:

- e. Is moved in an enclosed vehicle or is completely enclosed by a covering (such as canvas, plastic, or other closely woven cloth) adequate to prevent access by aphids or other transmission agents of plum pox while in the quarantined area;
- f. The regulated article must not be uncovered, unpacked, or unloaded while moving through the quarantined area.

PLANTS NOT REGULATED BY THIS QUARANTINE

APPENDIX A

06-02-00

Common Name	Scientific Name
Sweet cherry	<i>Prunus avium</i>
Tart cherry	<i>Prunus cerasus</i>
Royal cherry	<i>Prunus effusa</i>
English cherry laurel	<i>Prunus lauracerasus</i>
Mahaleb cherry	<i>Prunus mahaleb</i>
Bird cherry	<i>Prunus padus</i>
Sargent cherry	<i>Prunus sargentii</i>
Black cherry	<i>Prunus serotina</i>
Birchbark cherry	<i>Prunus serrulata</i>
Higan cherry	<i>Prunus subhirtella</i>
Yoshino cherry	<i>Prunus yedoensis</i>
Chokecherry	<i>Prunus virginiana</i>

ADDITIONAL INFESTED AREAS

APPENDIX B

07-18-22

New York:

Niagara County:

Effective January 29, 2016, Niagara County has been removed from area under quarantine.

Orange County:

Effective October 18, 2019, Orange County has been removed from area under quarantine.

Orleans County:

Effective September 5, 2013, Orleans County has been removed from area under quarantine.

Ulster County:

Effective October 18, 2019, Ulster County has been removed from area under quarantine.

Wayne County:

Effective September 5, 2013, Wayne County has been removed from area under quarantine.

Ontario, Canada:

Three sites have been confirmed, two sites in Niagara-on-the-Lake, and one in St. Catharines.
