

### 3410. HYDRILLA

#### State Interior Quarantine

A quarantine is established against the following pest, its hosts, and possible carriers:

- A. **Pest.** Hydrilla, *Hydrilla verticillata*, an aquatic weed that can, by its thick growth, restrict water flow and make recreational lakes and ponds unusable. It is a monocotyledonous plant of the family Hydrocharitaceae.
- B. **Area Under Quarantine.** Any body of water including lake, river, stream, canal, or pond, declared by the Secretary to be infested with hydrilla. (See Appendix A.)
- C. **Articles and Commodities Covered.**
  1. **Commodities Covered.** Hydrilla (*Hydrilla verticillata*) plants or parts of plants capable of growing, including parts of stems, tubers, and turions.
  2. **Articles Covered.** Any products, articles, implements, conveyances (including boats), or any appliance capable of transporting viable plant parts from the area under quarantine.
- D. **Restrictions.**
  1. **Movement of Commodities Covered Prohibited.** The movement of commodities covered is prohibited from the area under quarantine.
  2. **Movement of Articles Covered.** All articles covered may be restricted from access to water infested with hydrilla. In addition, said articles may be restricted movement from water infested with hydrilla.

#### Additional Areas Infested or Under Quarantine

##### APPENDIX A

12-28-18

The following areas are declared to be infested and are under quarantine for hydrilla:

1. **Imperial County:** Beginning at the intersection of State Highway 86 and San Felipe Creek; then, northeasterly along San Felipe Creek to its intersection with the shore of the Salton Sea; then, southeasterly, easterly, and northeasterly along said shore to its intersection with Alamo River; then, southerly along the Alamo River to its intersection with E. Keystone Road; then, westerly along E. Keystone Road to its intersection with McConnell Road; then, southerly along McConnell Road to its intersection with Keystone Road; then, westerly along Keystone Road to its intersection with Austin Road; then, southerly along Austin Road to its intersection with Jasper Road; then, southeasterly along Jasper Road to its intersection with S. La Brucherie Road; then, southerly and southwesterly along S. La Brucherie Road to its intersection with La Brucherie Road; then, southwesterly and southerly along La Brucherie Road to its intersection with Ferrell Road; then, southerly along Ferrell Road to its most southern point; then southerly along an imaginary line to its intersection with the U. S. and Mexico International Border; then, westerly along said international border to its intersection with the Westside Main Canal; then, northwesterly, northerly and northeasterly along the Westside Main Canal to its intersection with the Fillaree Canal; then, northeasterly along the Fillaree Canal to its intersection with Pierle Road; then, southerly along Pierle Road to its intersection with Edgar Road; then, easterly along Edgar

Road to its intersection with Thistle Canal; then, northwesterly along the Thistle Canal to its intersection with the Thistle Lateral 8; then, northerly along the Thistle Lateral 8 to its intersection with the Trifolium Extension; then, northwesterly along the Trifolium Extension to its intersection with State Highway 86; then, northwesterly along State Highway 86 to the point of beginning.

2. **Lake County:** Clear Lake.

3. **Yuba County:** Several ponds and irrigation ditches in the Oregon House area. (Contact the Yuba County Agricultural Commissioner's Office for details.)
